COMPANY OVERVIEW

Hart Continuity Solutions is a Woman-Owned Small Business (WOSB) specializing in program management, business continuity planning (BCP), and incident management consulting. We help federal, state, and local government agencies build resilient operations, respond effectively to disruptions, and sustain mission-critical functions under any condition.

Our leadership holds PMP, SAFe, and CSM certifications, bringing proven agile and traditional program management discipline to every engagement. We align with the DOGE-era priorities of efficiency, accountability, and measurable results.
